## Life Time Assurance

**When CCI engages with an individual in “Career Coaching” a significant human responsibility develops between Coach and the person being coached. While the formal career coaching process is of a finite length, CCI extends its duration to provide an assurance that could last a lifetime.**

### ORIGINAL AGREEMENT

The original Agreement between CCI and its Partner is based on the transfer of career planning services that span a time of several months. Like all agreements, the one between CCI and the person being coached has a finite duration. Notwithstanding that, CCI extends it with our Life-Time Assurance.

### THE BOND

During the many weeks or months of one-on-one interaction, a relationship of mutual responsibility develops between the Coach and the person being coached. The responsibility of that relationship is not taken lightly. Each Coach of CCI accepts the seriousness of this responsibility and acknowledges that the resulting human bond transcends the realm of one job, one employer or a single contract.

### THE ASSURANCE

Thus when you sign an agreement with CCI and even though that agreement may come to an end by virtue of your employment, an elapse of hours under contract, or any other reason, CCI undertakes to be available to you for as long as you feel there is a need – without a time limit.

### CONTACTING US

After your Agreement with CCI has expired you may still contact your Coach by means of telephone, email or fax at no charge. Regardless of how you make contact, you are assured of a response, usually within hours and

certainly no later than within 2 working days. Should your personal Coach no longer be available, another CCI Coach will respond.

### THE FINE PRINT

1. You must be a person in good standing with CCI, having fulfilled the terms of a full contract.
2. All CCI Coaches make a commitment upon joining CCI that they will personally always remain available to any person they coach through CCI. Within reason of the Coach's health and location, your CCI Coach will be available to you as long as you have a need. Even if a Coach departs CCI, that person has made an oath of personal availability to receive your phone calls and emails, as if you were a personal friend. Thus they will continue to afford you advice on your career issues.
3. The form of contact will be by email, phone or fax. This assurance does not assume face-to-face meetings; that is up to each Coach to decide according to individual circumstances.
4. This continued contact with your Coach is based on a casual contact for those emergencies that arrive in your life now and then. If the calling should become too frequent in the Coach's opinion, you will be asked to visit the Coach at the CCI office to discuss a renewal or extension of your past agreement with CCI.
